

Wall Projection

Situation:

Everyday life on PZ9 Floor

Target Group:

Students, visitors, employees who pass by the hall

Setting:

Wall, movement of people, offices

Themes:

- Availability of the employees (Professor, PhD students, etc...)
- Employees' profiles
- General information about the department

Wall Interactive Projection

The wall in PZ9 is too crowded with the pin board and information displayed on papers which do not attract people's attention. With wall interactive projection, there will be no need of pin board rather than interactive wall that display general information about the department the availability of the employees, the employees' profile, etc...and people can touch to get different information. It also utilizes the wall's space.

Notes:
