# BMW X1 Ski Simulator

## *Description:*

BMW X1 Ski Simulator is the game that is designed using simulation, the user can feel the same excitement and thriller of Ski.

It is like a computer game which much more focus on the user excitement level.

The game design for ski was developed with the cooperation with Expolab and MKT AG, MESO. The client was BMW AG, which implement this game to the people who want to feel like driving fast. This game is named as joy ride.
